Hi Jeanne,

Following concerns being raised about the "Master Service Agreement" requested by Chesapeake being 1) not well understood what they want, and 2) possibly confidential business information, I sent Chesapeake (Chris Hill with a cc to Stephanie Timmermeyer and John Satterfield) an email Monday morning asking them to clarify exactly what they were wanting to see. No response yet. I will call Chris this morning to check on their response.

I had a call today with Paul Hagemeyer, who said that we were close to resolving the indemnification issue through the inclusion of certain provisions in the Master Agreement between EPA and its contractor who will drill the monitoring wells under the wellpad.

Paul said that he thought that we could announce the new site very soon, after a week or so to wrap up the indemnification issue.
